### *From Elizabeth Herrell, President*

Throughout history and across cultures, the spring equinox has symbolized rebirth and the promise of a new beginning. So many of us are anticipating a fresh start with the dream of having life return to a safer place during the coming spring season. No matter what our age or background, we can all begin anew this month. Let’s stay away from thoughts of what might have been and look forward to what can be.

Our organization is now 42 years old, and we can all be proud of how well we have served our community. We have continued to achieve our mission to provide scholarship funding to deserving women, while fostering wonderful friendships. However, our organization can only thrive with the continued participation and support of every member. Each of you is what makes UWS the successful organization it is, and your contributions are so valued. I look forward to seeing all of you in our upcoming March meeting. Together we make a difference!
